COOKIE DOH BLEND — INGREDIENT PREP / PROCUREMENT LIST (17 SKUs · 2 bases)

Ingredient	Category	# Drinks	Drinks that use it	Par / Order Qty	Notes
FRUIT (use frozen IQF for delivery consistency)					
Banana	Fruit	7	Berry Spell, Blue Moon, Strawberry Kiss, Sunbeam, Tropical Bliss, Monkey Business, Sweet Talker		Highest-volume fruit on the menu
Strawberry	Fruit	6	Berry Bloom, Berry Spell, Pink Stardust, Ruby Glow, Strawberry Kiss, Sweet Talker		
Raspberry	Fruit	5	Berry Bloom, Berry Spell, Midnight Berry, Pink Stardust, Dark Temptation		
Mango	Fruit	5	Dragon Dream, Golden Glow, Sunbeam, Tropical Bliss, Mango Tango		Mango Tango specs Harum Manis (seasonal) — keep frozen mango as fallback
Blueberry	Fruit	3	Berry Bloom, Blue Moon, Midnight Berry		
Blackberry	Fruit	1	Midnight Berry		
Cranberry	Fruit	1	Ruby Glow		Frozen or unsweetened juice
Dragon fruit	Fruit	1	Dragon Dream		Red-flesh variety for colour
Watermelon	Fruit	1	Island Daydream		Fresh, deseeded
Lychee	Fruit	1	Island Daydream		Canned in syrup is standard
LIQUIDS					
Apple juice	Liquid	10	Berry Bloom, Berry Spell, Blue Moon, Midnight Berry, Pink Stardust, Ruby Glow, Strawberry Kiss, Golden Glow, Sunbeam, Mango Tango		Workhorse liquid base. Berry Spell uses a green-apple variant
Fresh milk (dairy, service)	Liquid	4	Cookie Crush, Monkey Business, Sweet Talker, Dark Temptation		Blending liquid for ALL cookie blends. SEPARATE from the milk used to make bases (Bases tab)
Lemon	Liquid	3	Pink Stardust, Golden Glow, Sunbeam		Fresh, for citrus lift
Coconut milk	Liquid	1	Dark Temptation		Added flavour ingredient in Dark Temptation, alongside its dairy milk
CHOCOLATE & COOKIE (cookie-blend station)					
Baked cookie (crumb + chunk)	Choc/Cookie	2	Cookie Crush, Monkey Business		Your own bake
Milk chocolate	Choc/Cookie	2	Cookie Crush, Monkey Business		Couverture or sauce
Dark chocolate	Choc/Cookie	1	Dark Temptation		Couverture
Cocoa powder	Choc/Cookie	1	Dark Temptation		Dutch-process
Caramel sauce	Choc/Cookie	2	Cookie Crush, Sweet Talker		Caramel swirl/drizzle. Note: ALL caramel-base drinks also get caramel flavour from the base itself
Brown sugar (finishing)	Choc/Cookie	1	Cookie Crush		Also a base raw material — see Bases tab
Flaky sea salt (finishing)	Choc/Cookie	1	Cookie Crush		Garnish
BASES (2 only — raw materials on 'Base Raw Ingredients', formulas on 'Base Recipes')					
Plain Yoghurt base	Base	13	Berry Bloom, Berry Spell, Blue Moon, Midnight Berry, Ruby Glow, Strawberry Kiss, Dragon Dream, Golden Glow, Sunbeam, Pink Stardust, Island Daydream, Mango Tango, Tropical Bliss		Now also covers the 4 former sorbet-line drinks. Build those juice-forward with a lighter yoghurt hand
Brown Sugar Caramel Ice Cream b	Base	4	Cookie Crush, Dark Temptation, Monkey Business, Sweet Talker		All cookie blends run off this

RAW INGREDIENTS TO MAKE THE 2 BASES

Raw Ingredient	Used in Base(s)	Role / Function	Par / Order Qty	Notes
Greek / full-fat yoghurt	Yoghurt	Body + tang		Fold in cold, off-heat — never boil
Whole milk	Yoghurt, Caramel Ice Cream	Liquid dairy / body		
Cream (35% fat)	Caramel Ice Cream	Richness / fat		
Skim milk powder (SMP)	Yoghurt, Caramel Ice Cream	Milk solids — body, anti-ice		
Sucrose (white sugar)	Yoghurt	Sweetness + structure		Dry-blend the gums into this first
Dextrose	Yoghurt, Caramel Ice Cream	Sweetness + freeze control		
Dark brown sugar	Caramel Ice Cream	Caramelised flavour + sweetness		Caramelise dry, deglaze with warm cream
Fine salt	Yoghurt, Caramel Ice Cream	Flavour balance		
Guar gum	Both bases (gum blend)	Bulk viscosity		Needs heat to hydrate (82-85C, hold 5 min)
Xanthan gum	Both bases (gum blend)	Cold suspension / delivery stability		Keep as minority of blend or it turns slimy
Soy lecithin	Yoghurt, Caramel Ice Cream	Emulsifier		Disperse in warm fat. DECLARE AS ALLERGEN

BASE RECIPES — batch formulas (per 1 kg batch)

GUM BLEND PRE-MIX (dry, store airtight — dry-blend into 10x its weight of sugar before use)			
Ingredient	**%**	**g / 1 kg**	**Notes**
Guar	60.00	—	One blend now serves both bases
Xanthan	40.00	—	60 parts guar to 40 parts xanthan

BASE 1 — PLAIN YOGHURT BASE (13 drinks: all berries, all tropical, ex-sorbet line)			
Ingredient	**%**	**g / 1 kg**	**Notes**
Greek / full-fat yoghurt	55.00	550.0	
Whole milk	22.00	220.0	
Sucrose (white sugar)	11.00	110.0	
Skim milk powder	6.00	60.0	
Dextrose	5.00	50.0	
Gum blend (guar 60 / xanthan 40)	0.35	3.5	Dry-blend with the sugar first
Soy lecithin	0.30	3.0	Disperse in warm milk
Salt	0.10	1.0	
TOTAL	**99.75**	**997.5**	

Method: Heat milk + SMP + sugars + gums to 82-85C, hold 5 min (hydrates guar, pasteurises). Disperse lecithin in the warm milk. Cool to 4C, then fold in the cold yoghurt OFF-HEAT — never boil the yoghurt. For the ex-sorbet drinks, build juice-forward with a lighter yoghurt hand to keep them refreshing.

BASE 2 — BROWN SUGAR CARAMEL ICE CREAM BASE (4 cookie blends)			
Ingredient	**%**	**g / 1 kg**	**Notes**
Whole milk	53.00	530.0	
Cream (35% fat)	20.00	200.0	
Dark brown sugar	18.00	180.0	Dry-caramelise to deep amber
Skim milk powder	4.50	45.0	
Dextrose	3.60	36.0	
Gum blend (guar 60 / xanthan 40)	0.40	4.0	Dry-blend with dextrose first
Soy lecithin	0.40	4.0	Disperse in warm cream
Salt	0.40	4.0	
TOTAL	**100.30**	**1003.0**	

Method: Dry-caramelise the brown sugar to deep amber, deglaze carefully with the warm cream (it spits — stand back). Add milk/SMP/dextrose/gums, bring to 82-85C, hold 5 min, disperse lecithin warm. Cool, AGE 12 h at 4C, then churn. Scoop into blender with milk + cocoa/chocolate + ice for the cookie drinks.

UNIVERSAL RULES

- Dry-blend gums with ~10x their weight in sugar before adding to liquid — prevents 'fish-eyes' (clumps).
- Guar only hydrates with heat (82-85C). Xanthan hydrates cold. The pasteurise step is mandatory, not optional.
- Age the caramel ice-cream base the full 12 h — the rest does the anti-iciness work.
- Declare SOY as an allergen on every label (it's in both bases).
- Build delivery drinks THICKER than dine-in — they should leave the store almost spoonable; transit melt thins them.
